

Upgrade eClient

Option 1: Upgrade eClient from 8.4.02 to 8.4.03

Software:

- IBM II4C new version; (Bob will provide)
- EClient application package(the .ear file) the customized SIA version not the original eClient. (Bob will provide)

Steps:

1) Backup the :

livingstonCustom.properties

IDM.properties

IDMadminDefaults.properties

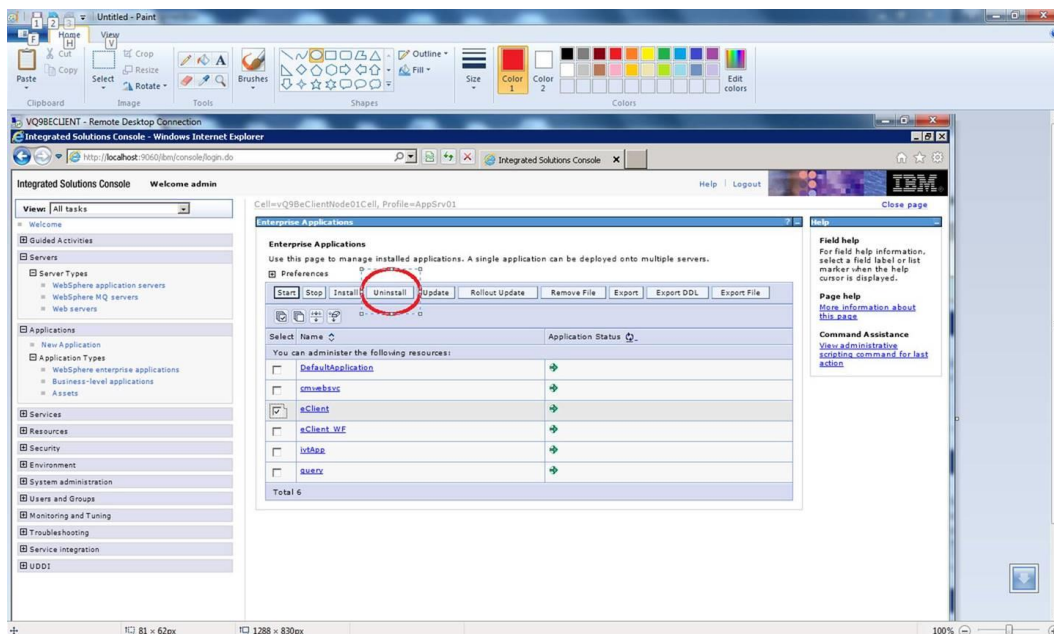

From:

D:\Program

Files\IBM\WebSphere\AppServer\profiles\AppSrv01\installedApps\vQ9BeClientNode01Cell\ecClient_WF.ear\ecclient.war

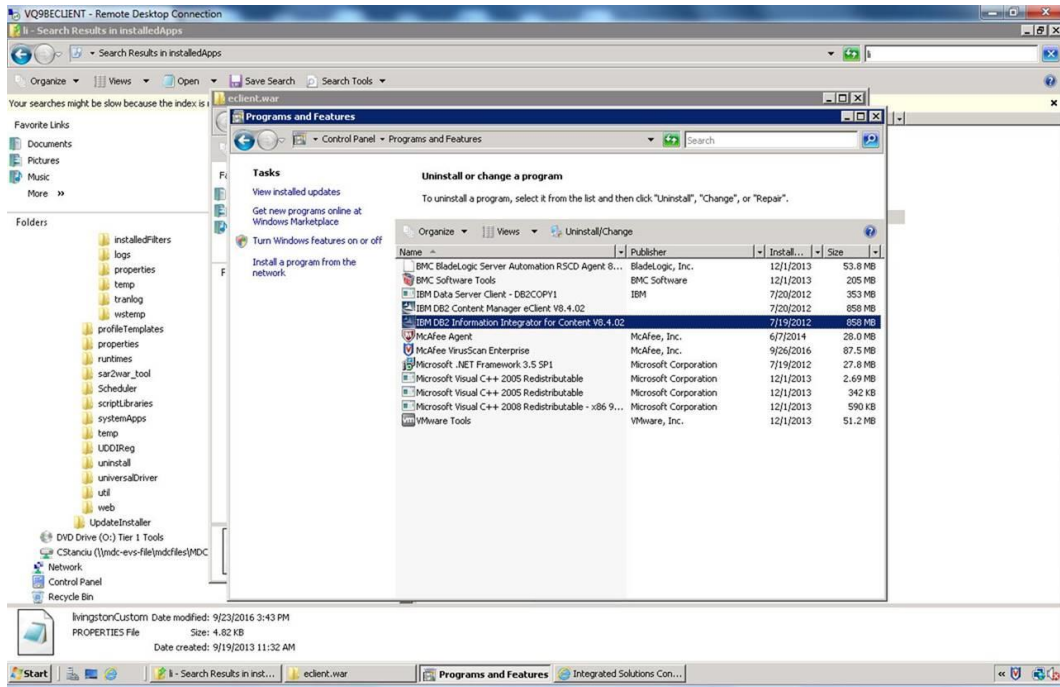

2) You need to uninstall eClient ear file from websphere administration

Connect to : <http://localhost:9060/ibm/console/unsecureLogon.jsp> as admin and uninstall it from here :

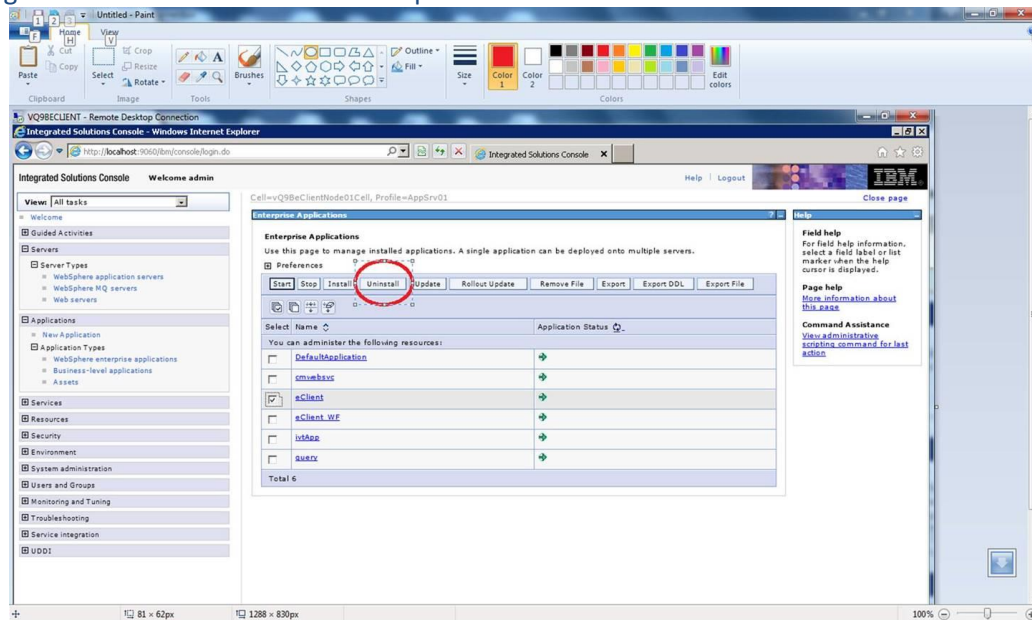

Or uninstall it from Control Panel Programs and Features.

3) Uninstall the II4C

- 4) Install the new version for IIC
- 5) Install the new eClient 8.4.3
- 6) upgrade SIA eClient 8.4.3. from websphere administration

- 7) Copy the
livingstonCustom.properties
IDM.properties
IDMadminDefaults.properties

from the backup directory to the new location of eclient.

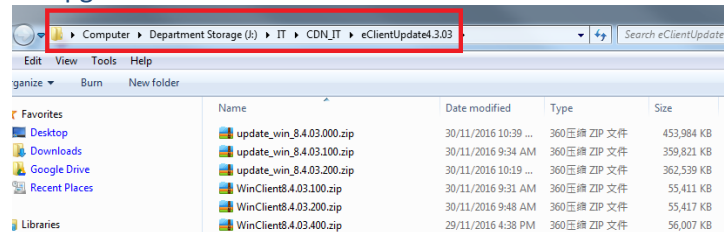

Option 2: Upgrade eClient from 8.4.02 to 8.4.03
